

Gasurveyor 500 Series

Heath Consultants Incorporated introduces the redesigned Gasurveyor. The Gasurveyor 500 series is the most flexible range of gas detectors available today. By simple selection of hardware and software options, the user can easily configure the product to suit the exact application.

The Gasurveyor 500 series measures flammable gases and vapors, searches PPM, LEL and Volume flammable ranges; measures oxygen and toxic gases. Simple operation, 2 and 4 button models, built-in sampling pump, large LCD with automatic backlighting, audio, visual and fault alarms, data logging and a wide variety of probes makes the Gasurveyor 500 series perfect for any of your gas detection needs. Some standard versions of the Gasurveyor 500 are available; details are available upon request. The Gasurveyor 500 series are highly accurate and reliable instruments in an extremely durable, anti-static case.

The two (2) button Gasurveyor 500 instruments are extremely easy to use and very cost effective for basic applications. The four (4) button instruments have data logging capabilities as well as other advanced alarm features.
