EXCELS IN HARSH ENVIRONMENTS

visible · audible · durable · refurbishable
easy to handle · one button operation

The new **T.ex** single gas detector

* actual size

Specifications

Physical Properties

Weight: 71g (Toxic) / 81g (Oxygen)
Dimensions: 85 (H) x 55 (W) x 29 (D) mm

Environment

Temperature limits: -20° to +50° C
Humidity: 0-98% RH (non-condensing)

Alarms: audible 95dB @10cm
ultra bright LED's
vibrating

Warranty: instrument lifetime,
providing continuous
maintenance free use

Performance tested to
EN50104 (Oxygen)
EN45544 (Toxic)
Protection Rating: IP67
Function Test: checks all instrument
features, alarms and operation

Certification: ATEX II 1 G EEx ia IIC T4
UL 913 Class 1, Div 1 Groups ABCD

With a robust crocodile clip

Bump Test Station / Calibration Station

Ensure you are ready to go.

The GMI bump-test station provides a quick verification that your T.ex instrument is operating correctly. Designed for companies that use a large volume of instruments, the bump-test station is economical on gas use and time. Simply insert the instrument and an automatic full-function test will be completed in a matter of seconds.

Green for Go given after essential checks completed:

- **Sensor response to gas**
- **Visual LED alarm activation**
- **Audible alarm activation**

Full Calibration option is available. This station provides a complete calibration with storage of each instrument calibration and certificate printing.

Ordering Requirement

Supplied complete with user handbook, quick operation guide,
integrated crocodile clip and calibration certificate
