## Bump Test Station / Calibration Station

Ensure you are ready to go

The T.ex bump-test station provides a quick verification that your T.ex instrument is operating correctly. Designed for companies that use a large volume of instruments, the bump-test station is economical on gas use and time. Simply insert the instrument and an automatic full function test will be completed in a matter of seconds.

Green for Go given after essential checks completed:

- Sensor response to gas
- Visual LED alarm activation
- Audible alarm activation

Full calibration option is available. This station provides a complete calibration, with storage of each instrument calibration and certificate printing.
